

WISCONSIN & U.P. MICHIGAN-MUNICIPAL

ALFA LAVAL:	ALDEC G2 & G3 Centrifuges; Spiral & Tube Heat Exchangers; ALDRUM G3 Rotary Drum Thickener; Klampress 3 Belt Filter Press; Europress 2 Belt Press; AquaBelt Gravity Belt Thickener; Manor Filter Press; Alfa Laval Screw Press
AMBIO BIOFILTRATION:	Odor Control Technologies; Biofilters; Photolonization and Corona Discharge Odor Control Systems
APG-NEUROS, INC.:	High Efficiency Turbo Blowers with Air Bearing for Compressed Air Supply
AQUA-AEROBIC SYSTEMS, INC.:	AquaExcel® Sequencing Batch Reactor System; Aqua-Aerobic® MBR Membrane Bioreactor; AquaPASS® Phased Act. Sludge Process; AquaDisk® and AquaDiamond® Cloth Media Filtration; Aqua-Jet® Surface Aerators; AquaDDM® Mixers; AquaABF® Traveling Bridge Sand Filters; ThermoFlo® Spray Coolers; AquaCAM-D® Small SBR Systems
BLUE IN GREEN, LLC:	SDOX™ Supersaturated Dissolved Oxygen Generator; HyDOZ Hyperconcentrated Dissolved Ozone Injector; CDOX™ Carbon Dioxide Injection System
CALGON CARBON CORP.:	UV Technologies Div. – Lo Pressure/Hi Intensity Horizontal In-Channel & Sentinel™ Medium Pressure Reactor Systems
CONTINENTAL BLOWER:	Multi-Stage Centrifugal Blowers
CUSTOM CONVEYOR CORP.:	Complete Line of Conveying Systems – Shaftless Spiral, Shafted, Belt, Elevator, Chain, Articulating, Leveling, Live Bottom Hoppers
DE NORA WATER TECHNOLOGIES:	Clortec On-Site Hypochlorite Generation; Gas Feed Equipment (Capital Controls); EST Wet/Dry Chemical Scrubbers & Eductors; Chlorine Dioxide Generator; CHLOR-A-VAC Vacuum Induction Mixer/Disperser; Sanuril®/D-CHLOR® Tablet Feeders; MicroChem2 Water Quality Monitors (DO, TSS, Residual Chlorine, Ion Selective Probes); Inorganic Filtration of Potable Water including Bayoxide Media
DUPERON CORPORATION:	FlexRake® Coarse Screens; Self-Cleaning TrashRack; Perforated Plate Belt Screen
ELECTRATHERM:	Power + Generator Systems producing Electricity using Low Temperature Waste Heat and ORC Technology
ENDURO COMPOSITES:	TuffSpan, XL6, And Suregrip FRP Environmental Tank Covers and Baffle Walls
ENVIRONMENTAL FABRICS, INC.:	Permeable & Impermeable Floating Covers; Baffles; Liners; ThermaFab Covers
FOURNIER INDUSTRIES INC.:	Rotary Press Dewatering Systems
FRANKLIN MILLER, INC.:	Open Channel and In-Line Grinders, Shredders, and Comminutors
GE WATER & PROCESS TECHNOLOGIES/ZENON:	Membrane Treatment Systems –ZeeWeed Immersed UF Systems; EDR (Electrodialysis Reversal); RO; Package Plants; Pressurized UltraFiltration Systems; LEAPmbr®; ZeeLung® Membrane Aerated Biofilm Reactor
HAYWARD GORDON PUMP CO.:	Centrifugal Solids Handling Pumps-Recessed Impeller, Screw Impeller, Chopper; Wet-Pit Pumps; Mixers
HELLAN STRAINER CO.:	Self-Cleaning Fluid Strainers – Manual and Automatic
HONEYWELL UOP:	XCeed™ BioReactor Technology – Fixed Film Biological Treatment
HYDRO INTERNATIONAL-EUTEK GRIT SYSTEMS:	HeadCell™ Solids Concentrator; TeaCup™ Grit Separator; SlurryCup™ Sludge Degritter; Grit Snail™ Dewatering; SludgeScreen® for In-Line Screening/Screenings Compacting of Biosolids
INVENT ENVIRONMENTAL TECHNOLOGIES:	Innovative Mixing Technologies, Aeration Systems and System Solutions. HYPERCLASSIC Mixer Evo 7, HYPERDRIVE Mixer, HYPERPITCH Mixer, HYPERCLASSIC Mixer/Aerator and CYBERPITCH Flash Mixer
ISHIGAKI USA:	Screw Press for Solids Thickening and Dewatering
K_La SYSTEMS, INC.:	Jet Aeration & Mixing Systems; Digester Mixing Systems; High Efficiency KSI Slot Injector Aeration Systems
LEOPOLD CO., a Xylem Brand:	Filter Underdrains – Type XA; Filter Control Systems; Filter Media; Surface Agitators, Clari-Vac™ Floating Sludge Collector; CT2™ Submerged Sludge Collector; Clari-DAF™ System; elimi-NITE™ Denitrification System

WISCONSIN & U.P. MICHIGAN-MUNICIPAL

LOBELINE, Div. of Swaby Pump:	Rotary Lobe Pumps
GRIDBEE & SOLARBEE Medora Corporation:	Solar and Grid powered circulators for water and wastewater applications including water towers and reservoirs, aerated lagoons, CSO ponds, effluent irrigation ponds and sludge storage tanks
MILTON ROY:	PRIMEROYAL®, mROY®, MILROYAL®, MAXROY®, MACROY®, SOLAROY®, POWEROYAL, & Centrac Chemical Metering Pumps & Chemical Feed Systems; SCDs for Coagulant Control
MIOX:	Mixed Oxidant Solution and Sodium Hypochlorite On-Site Generation Systems
OVIVO:	Carrousel® Oxidation Ditch; Clarifiers; Thickeners; Rotary Distributors; Sidestream Treatment - AnammoPAQ™ and PHOSPAQ™; Anaerobic Digestion - LM™ Mixers, EIMIX® Mixers, Ultrastore™ Membrane Gasholders, and Steel Covers; Aerobic Digestion - Enviroquip® Airbeam™ Cover, ECO_MAT®, G-TAD™, M-TAD™, and MEM-TAD™ Thickening Processes; DigestivorePAD™; AEROSTRIP® Aerators; J+A Jeta® Grit Trap; Bracket Bosker® Automatic Raking Screen; Duet™ Fine Screen
PARKSON CORPORATION:	Lamella® EcoFlow™ Gravity Settler; DynaSand® Ecowash™ Advanced Filtration System; HiOx® Messner® Aeration Panel; Wyss® Flex-A-Tube® Diffusers; Biolac® Extended Aeration Activated Sludge Process; ThickTech™ Rotary Drum Thickener; AquaGuard® UltraClean™ Element & Perf Screens; Aqua Wash Press; Helisieve® Fine Screen & Dewatering System; Rotoshear® & Rotomesh® Drum Screens; Combi® All-In-One Headworks; Thermo-System® Solar Sludge Dryer
PULSED HYDRAULICS, INC:	PHi manufactures the original energy efficient “Hydro-Pulsed” technology that mixes without in-basin moving parts. PHi’s technology can be applied to Aerobic Tanks, Water Storage, Lift Station, Sludge, Backwash Mud Basin and Stormwater Mixing applications
RDP TECHNOLOGIES:	TEKKEM Lime Slaker and Precision Hydrated Lime Systems; Biosolids Storage & Conveying Systems; Fenton Drying Systems and Biosolids Stabilization Systems
REDZONE ROBOTICS:	Products and Services to allow Municipalities, Engineering Firms and Contractors of all sizes to better understand and manage their wastewater infrastructure.
REXA ACTUATORS:	Self-contained electro-hydraulic actuators and drives that improve control and extend the life of severe service trims providing stability and precision operation in all actuator applications
SHELTERWORKS:	Freedom Series™ FRP Shelters for Screening Rooms, Blower Enclosures, Chemical Feed, MCC’s
SPAANS BABCOCK:	Archimedes Screw Pumps; ECO Bearing
SSi - STAMFORD SCIENTIFIC INTERNATIONAL:	Diffused Aeration Systems - AirFlex™ Disc & AirFlex™ Tubular Fine Bubble; Replacement Diffusers; PTFE Layered EPDM Membrane Diffusers
THERMAL PROCESS SYSTEMS:	ThermAer™ Aerobic Thermophillic Digestion (ATAD) Process; SNDR™ Nutrient Management; Bio-FiltAer Odor Control
TRIPLEPOINT WATER TECHNOLOGIES:	Wastewater Lagoon Solutions; NitrOx Ammonia Removal; MARS Wastewater Lagoon Aeration; PhosBox Lagoon Phosphorus Removal; LARS™ Advanced Lagoon Treatment
VAREC BIOGAS:	Digester Gas Safety Equipment; Biogas Conditioning Systems (H2S Removal, Moisture Removal)
VELODYNE:	Hybrid Liquid Polymer Activation Technology; Liquid and Dry Polymer Activation and Feed Systems; Bulk Solids Handling - Silo and Bag Systems, Auger Feeders, and accessories; offering manual to completely automated control systems
WATSON-MARLOW PUMPS:	Peristaltic Tubing and Hose Pumps for Chemical Metering/Transfer and Sludge Feed/Transfer Applications
WHIPPS:	Sluice Gates; Slide Gates; Stop Gates; Weir Gates; Stop Logs; Flap Gates; Bulkheads; T-Valves

WISCONSIN & U.P. MICHIGAN-MUNICIPAL

ZAPS TECHNOLOGIES:

ZAPS Liquid Station utilizes Hybrid Multispectral Analysis for continuous, online water-quality monitoring. LiquidD features a host of unique innovations to provide nearly maintenance-free continuous monitoring of multiple parameters simultaneously in the water, wastewater treatment applications.
